Sale Conditions

READ CAREFULLY, PLEASE, BEFORE ORDERING:

TERMS: Please send cash, check, or money order with your order. Because of the perishable nature of the materials, no C.O.D. orders can be accepted. If you are calling for your order at the nursery, please give us a few days notice in our busy season, so that we might have your order ready for you when you call for it. All orders are taken on the condition that we are not sold out when your order arrives. Please name some substitutes. We can not be responsible for future orders backed with us if we have crop failures.

PLEASE NOTE: To all orders delivered in Maryland or D. C., add 2% sales tax. Orders can not be delivered until tax is paid.

SMALL ORDERS: On all orders of less than \$5.00, add 50c handling charge. Sizes available listed under each variety are subject to prior sale.

SHIPPING: Unless otherwise noted, all plants are shipped parcel post, prepaid. All packing is done free of charge. On all prepaid orders shipped west of the Mississippi, please add 10% to help defray cost of postage. For the safety of your plants, and so that they will arrive in the best of condition, all plants have been protected with Wilt-Pruf.

STOCK SPECIALLY SELECTED: Stock specially selected by the customers at the nursery will be charged according to the value of the plant material chosen irrespective of the list price.

OUR GUARANTEE TO YOU: We guarantee high quality stock, exactly as represented, government inspected, true to name and to arrive safely in healthy, live-growing condition. Any plants that reach you otherwise, will be replaced free if notified 5 days after delivery of order.

REPLACEMENTS — We guarantee our plants to grow, bloom and produce if given intelligent handling, proper planting and reasonable care. Weather conditions, carelessness and lack of experience by the planter are conditions beyond our control; regardless of this, TEN OAKS will replace any plants that fail to grow at half the original purchase price if notice is made six months after delivery of your order. Please enter complaints immediately, and be sure to return your original order blank or sales slip to us, or adjustment cannot be made. It is mutually agreed that our liability can not be greater than purchase price. **GUARANTEED SATISFACTION.**

On Your Total Order.

TEN OAKS NURSERY & GARDENS, Inc., Clarksville, Md.

Do It Yourself

Do it yourself by planting for yourself. We are open seven days a week during the planting season in Spring and Fall, since many people work and have only Saturdays and Sundays free to do their planting. If you feel that you can not do your own planting, we will do it for you at an additional 60% to all prices in the catalogue. This 60% includes composted soil—fertilizer and peat moss. This also includes a guarantee against our workmanship and plant defects as outlined in the sale conditions. The above offer applies to a minimum order of \$25.00 within a thirty-mile radius of the nursery. With orders amounting to \$100.00 or more, the service charge will be 40% plus catalogue prices.

Local deliveries are made for customers living within approximately thirty miles of the nursery on specific days for different areas if the size of the order warrants doing so. Deliveries are made outside the thirty-mile area at cost.

For those customers doing their own planting, we have prepared, bagged compost and baled Canadian spagnum peat moss available at current prices. We also carry a balanced organic fertilizer for feeding all your plants in Spring and late Fall.

Bushy shows you how!

Successful Culture For All Acid-Loving Plants

SOILS AND THEIR PREPARATION:

Soils good for growing azalea and their companions occur naturally in many places; in fact, it is borne out that by far the greater proportion of soil will produce good plants with little preparation. Where soils are not suitable for the production of good plants, there is usually no great difficulty in making them so without much trouble or expense. Soils suitable for azalea should be in good mechanical condition, open and friable, acid, well-drained, moist, and furnished with organic matter in generous amounts.

All that is necessary in preparing for the planting is to see that drainage is adequate. Where water does not stand on top of the ground for hours after a rain storm a well-drained place is generally present. Next it is necessary to see if the soil has the proper prerequisites for the growing of plants. For the best results, dig the hole that is to receive the plant twice as deep and twice as wide as the ball on the plant. Then take away all the soil, and make up your planting soil as follows: one part peat moss; one part coarse sand; one part good garden soil; mixing with this half-a-hand-full cottonseed meal (or a good special organic fertilizer—not both). When this is thoroughly mixed, use this mixture for the planting of your plants—both under and around the plant, watering well as you fill with soil to the level of the ball. Never put the plant deeper that it was at the nursery. If your soil is sandy, leave out sand in your mixture. If your soil is sticky clay, make your hole larger than necessary, in order that you may have a greater amount of the proper soil mixture around the plant. When the plants are completely planted and thoroughly watered, mulch the top of the ground with two or three inches of peat moss to keep the ground cool, moist, and acid; add to this mulch every Spring and Fall to keep it at this level. Never use lime or allow lime to be used on or near any of these plants; death may occur. Well decayed oak leaves, no maple, may be used in place of peat moss.

CULTURE AND CARE:

Because the greater mass of roots is found in the top few inches of soil, cultivation with a hoe is not advisable. You will not only cut the roots, but you will disturb the mulch of peat moss that is to be kept around the plants at all times. Pull by hand any weeds that grow, and shake off the peat that clings to the roots. Water heavy during July and August because azalea and rhododendron are making buds at

that time for the following year. It is important not to feed your plants after June 15th, in order that they may harden in late Summer for the coming winter. Protect all small plants the first winter from winds with fruit baskets or burlap on stakes. A cold frame is even better! Plants are rarely killed after they have become acclimated.

Dig the hole that is to receive the plant at least twice as wide and twice as deep as the ball on the plant. This enables you to get plenty of good, new soil around the roots.

Put all new soil around your plant using plenty of peat moss with your azalea and rhododendrons. See instructions; Soils and Their Preparation.

FEEDING:

Use only special fertilizers, made by all the reliable firms, for broadleaf evergreens. Cottonseed meal is an excellent organic fertilizer. Sprinkle the fertilizer lightly around each plant out to the furthest branch and water at once. Fertilize twice a year—March and late May. Do not disturb the mulch by hoeing or raking the food into the soil.

PRUNING:

Little pruning is needed for garden azalea other than to keep off the long, unsightly shoots, and to shape up the plant according to taste. All pruning must be done before June 15th because azalea make their buds in June and July for the following year.

Water your plants well when half-planted and keep them well watered for the first year.

Keep a good mulch of peat moss on your plants. This keeps them cool in the summer and warm in the winter as well as keeping the ground moist.

PESTS AND DISEASES:

Healthy plants that have been well fed and watered have few pests or diseases. If the above features have been neglected, below are mentioned a few pests and diseases that you may encounter. White-fly, Lacebug, Leaf minor, Scale, Thrips, and red mites are the most common pests with which to contend. These can be controlled by spraying just as soon as the danger of over-night freezing has passed. A second spray should be applied immediately after blooming; and a third spray should be applied two weeks later. We use a mixture of malathion, methoxychlor, and captan. Apply a forceful mist, and direct it under the leaves. For chlorosis or yellows, we use a 12% solution of sequestrene of Iron—NAFE. Directions will be found on the container. For fungi diseases, we use bordeaux or cuprocid mixtures at ten-day intervals. If there are any diseases that you cannot control, get in touch with your local department of agriculture or state college.

AZALEAS The Glenn Dale Hybrid

Hardy Evergreen and Semi-Evergreen Types

The varieties listed this year are the plants that have come out on top after going through five or more years.

These are picked for heavy flowering plants; good winter and summer foliage; pleasing shades of color and hardiness.

There are many varieties that are just as hardy but are mere duplications, so we are listing our choice in order to get the many azalea varieties consolidated into a smaller group. If you want full descriptions of these and the other Glenn Dale azalea, you may get a copy of "The Glenn Dale Azalea" by B. Y. Morrison from The Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Ask for monograph number 20, and send 40c.

ALADDIN. Upright, tall grower, salmon-pink with dots of rose. Large single flowers. Early flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

AMBROSIA. Medium grower, begonia-pink to pale apricot. Large single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

ANGELA PLACE. Low to medium grower, pure white. Very large single flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

ANTARES. Upright, tall grower, deep rose-red. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

ARCADIA. Upright, tall grower, deep rose-pink. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25

BALLET GIRL. Upright, tall grower, orange-red. Masses of hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60

BEACON. Medium grower, deep rose flowers. Early flowering.

Spring only—2 to 4 inch .60

BISHOP. Upright, medium grower, rose-red with undertone of yellow. Single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25
10 to 12 inch 2.25

BOUNTIFUL. Medium grower, phlox-purple and frilled. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
8 to 10 inch 1.75

BUCCANEER. Upright, tall grower, orange-red. Single flowers. Midseason flowering.

Spring only—2 to 4 inch .60
10 to 12 inch 2.25

BURGUNDY. Upright, tall grower, red, darker on margins. Single flowers. Early flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

CAVALIER. Medium grower, brilliant orange-red. Single flowers. Early flowering.

Spring only—2 to 4 inch .60

CLARION. Upright, tall grower, almost scarlet. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

COPPERMAN. Medium to low grower, brilliant red. Large, single flowers. Midseason to late flowering.

Spring only—2 to 4 inch .60

COQUETTE. Medium grower, almost begonia-pink. Single flowers. Early to midseason flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

CORALIE. Medium grower, salmon-pink. Hose-in-hose flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

CORAL SEA. Medium grower, clear pink flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

COMMODORE. Medium grower, spreading, deep crimson. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

CRINOLINE. Medium, spreading grower, pink with white eye. Very large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

CRUSADER. Low, spreading grower, geranium-red with blotch. Large, single flowers. Late flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

DAYSPRING. Medium, upright grower, white, shading to pink. Medium, single flowers. Very early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
8 to 10 inch 1.75

DELIGHT. (NEW). Upright, tall grower, pure white with flakes of purple. Very large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

DELILAH. Medium, spreading grower, pure salmon-orange. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

EMBLEM. Upright, tall grower, scarlet-red. Single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

EVEREST. Medium, spreading grower, white. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25
8 to 10 inch 1.75

EUCHARIS. Very low, spreading grower, white. Large, frilled, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

FAKIR. Low spreading grower, rose with yellow undertone. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

F. C. BRADFORD. Low, spreading grower, rose-red. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

FASHION. Upright, tall grower, begonia-rose with white base. Large, hose-in-hose flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

FAWN. Low to medium grower, rose color flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

FESTIVE. Upright, medium grower, white sanded and striped rose. Large, single flowers. Very early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25

FIRE DANCE. Medium, spreading grower, rose-red frilled. Large, single flowers. Mid-season to late flowering.

4 to 6 inch .90

GALATHEA. Upright, tall grower, deep red. Single flowers. Early flowering.

8 to 10 inch 1.75

GLACIER. Medium, spreading grower, white with faint green tone. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25

GLADIATOR. Upright, tall grower, very deep red. Single flowers. Early flowering.

Spring only—2 to 4 inch .60

GORGEOUS. Upright, medium grower, rose-red. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

GRACE FREEMAN. Medium, spreading grower, medium pink with darker dots. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

GRANDAM. Low, spreading grower, white, sanded and striped purple. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
8 to 10 inch 1.75

GREETING. Upright, spreading grower, coral-rose, ruffled. Single flowers. Early to mid-season flowering.

4 to 6 inch .90
6 to 8 inch 1.25

GYPSY. Tall, upright grower, light purple flowers, early to mid-season flowering.

Spring only—2 to 4 inch .60

HELEN CLOSE. Low, spreading grower, white, with pale yellow center. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

JAMBOREE. Medium grower, light scarlet red. Early to mid-season flowering.

Spring only—2 to 4 inch .60

JOYA. Low to medium grower, brilliant rose-pink flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

JUBILANT. Medium grower, hose-in-hose, salmon-pink flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

KENWOOD. Medium grower, dark pink or rose flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

LYRIC. Medium, spreading grower, white. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

MADRIGAL. Low, spreading grower, light rose-pink. Very large, single flowers. Early flowering.

6 to 8 inch 1.25
8 to 10 inch 1.75

MANHATTAN. Medium, spreading grower, clear pink. Large, single flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60

MARTHA HITCHCOCK. Medium, spreading grower, white, margined purple. Very large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
8 to 10 inch 1.75

MERLIN. Medium grower, rosy-lavender flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

MOONBEAM. Medium, spreading grower, white with some frilling on margins. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

MOONSTONE. Medium, spreading grower, white with greenish throat. Large, single flowers. Mid-season to late flowering.

2 to 4 inch .60
4 to 6 inch .90

MORNING STAR. Upright, tall grower, rose with yellow undertone. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25

MUSCADINE. Spreading, but fairly tall grower, rose-purple. Very large flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

NATIVITY. Medium, spreading grower, white with pale chartreuse blotch. Large, single flowers. Early to mid-season flowering.

8 to 10 inch 1.75

NOCTURNE. Medium, spreading grower, clear deep purple. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
8 to 10 inch 1.75
10 to 12 inch 2.25

NIAGARA. Low, spreading grower, pure white with chartreuse blotch. Large, single, frilled flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

PALADIN. Medium, spreading grower, medium purple. Large, single ruffled flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25

PARADISE. Medium, upright grower, rose doree in color. Large, hose-in-hose flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60

One of TEN OAK'S Shade Houses where Azalea and Rhododendron are grown.

PETER PAN. Medium, spreading grower, rose-pink almost white in center. Single flowers. Early to mid-season flowering.

8 to 10 inch 1.75

PHOEBE. Low, spreading grower; pink flushed with rose. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

PICOTEE. Low to medium grower, white flowers with purple edge. Mid-season flowering.

Spring only—2 to 4 inch .60

PINNOCHIO. Medium, spreading grower, white with stripes of red. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

PIXIE. Medium grower, white with pink markings. Early flowering.

Spring only—2 to 4 inch .60

PORTENT. Medium to tall, spreading grower; white flaked purple. Single flowers. Early flowering.

4 to 6 inch .90

PRUDENCE. Medium, spreading grower; dark rose in color. Early to mid-season flowering.

Spring only—2 to 4 inch .60

RED BIRD. Medium upright grower, semi-evergreen; scarlet-red. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

REFRAIN. Tall, spreading grower; white with rose and pink stripes. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

ROGUE. Medium, spreading grower; white with purple flakes. Very large single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

SAFRANO. Medium, spreading grower, pure white. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

SAGITTARIUS. Very low and very spreading type of grower, brilliant pink with salmon undertone. Very large, single flowers. Late flowering.

Spring only—2 to 4 inch .60
8 to 10 inch 1.75

SAMBO. Medium, spreading grower; purple to brownish-red. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25

SAMITE. Tall, upright grower, hose-in-hose, pure white flowers. Early flowering.

Spring only—2 to 4 inch .60

SAMSON. Medium, spreading grower; rose with yellow undertone. Large, single flowers. Mid-season to late flowering.

8 to 10 inch 1.75

SARABANDE. Medium, spreading grower; white center, edged purple. Large, single flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

8 to 10 inch 1.75

SCHERZO. Medium, spreading grower; white with violet stripes. Large, single flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

SCOUT. Medium, spreading grower, beautiful orange-red. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

8 to 10 inch 1.75

10 to 12 inch 2.25

12 to 15 inch 3.00

SEAFOAM. Low, spreading grower; white, frilled, yellow in throat. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

6 to 8 inch 1.25

SILVER MIST. Low, spreading grower; white sanded with magenta. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

SNOWCLAD. Medium, spreading grower. Beautiful pure white, ruffled. Very large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

6 to 8 inch 1.25

8 to 10 inch 1.75

10 to 12 inch 2.25

SURPRISE. Low, upright grower; medium pink with white margins. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

TAFFETA. Medium to low, spreading type of grower; white sanded and striped purple. Large, single flowers. Mid-season flowering.

Spring only—4 to 6 inch .90

TEMPLAR. Medium to tall grower; mallow-purple, white base. Large, single flowers. Early flowering.

4 to 6 inch .90

6 to 8 inch 1.25

TREASURE. Medium, spreading grower; white with a slight tint of pink when flower first opens. Very large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

6 to 8 inch 1.25

8 to 10 inch 1.75

10 to 12 inch 2.25

12 to 15 inch 3.00

VESTAL. Medium to low, spreading grower; white. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

6 to 8 inch 1.25

VINTAGE. Medium to low, spreading grower; pale purple. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

8 to 10 inch 1.75

VIOLETTA. Medium to low, spreading grower; light mallow-purple. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

6 to 8 inch 1.25

10 to 12 inch 2.25

WAVELET. Medium, spreading grower; white with yellow blotch. Large, single flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60

6 to 8 inch 1.25

12 to 15 inch 3.00

WILDFIRE. Low, spreading grower; deep rose with scarlet at base. Large, single flowers. Mid-season flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

WITCHERY. Medium, spreading grower; clear pink. Large, single flowers. Early flowering.

6 to 8 inch 1.25

YOUTH. Medium, spreading grower; pure light purple. Large, single flowers. Mid-season to late flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

6 to 8 inch 1.25

ZULU. Medium, spreading grower; mallow purple with showy blotch. Very large, single flowers. Early flowering.

Spring only—2 to 4 inch .60

4 to 6 inch .90

U.S.D.A. HYBRID AZALEA

Some very hardy and wonderful hybrids are coming from The United States Department of Agriculture at Beltsville, Maryland, and many more are under test there. Keep your eye on these as we have found them to be extremely hardy under our severe tests.

BACCHUS. Medium grower; pinkish-salmon. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
8 to 10 inch 1.75

CARILLON. Low grower; dark salmon. Large single flowers. Early flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

EUREKA. Low, compact grower; lavender pink. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
8 to 10 inch 1.75

GUY YERKES. Medium to low grower; salmon-pink with darker spots in throat. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

MITHRA. Medium, compact grower; pure white. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

PINK PROFUSION. Medium grower, clear pink with darker spots in throat. Large, hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60

POLAR BEAR. Medium, compact grower, Hose-in-hose flowers, white with slight yellowish tint in throat. Early flowering.

Spring only—2 to 4 inch .60

ROSE BANNER. Medium grower; rose-pink with darker spots in throat. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60

WHITE BANNER. Low to medium grower, white hose-in-hose flowers. Early flowering.

4 to 6 inch .90

WHITNEY. Low, compact grower; pure white. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

U.S.D.A. No. 44. Low grower; salmon-pink. Early flowering.

Spring only—2 to 4 inch .60
6 to 8 inch 1.25

U.S.D.A. No. 181. Medium grower, flowers bright scarlet. Early flowering.

Spring only—2 to 4 inch .60

U.S.D.A. No. 228. Medium grower; white. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

U.S.D.A. No. 392. Medium, upright grower; rose. Early flowering.

Spring only—2 to 4 inch .60

U.S.D.A. No. 399. Medium grower, rose-pink flowers. Early flowering.

Spring only—2 to 4 inch .60

Some of TEN OAK'S popular-priced
2 to 4 inch Azalea.

KURUME AZALEA

Flowers of the kurume azalea are small when compared to others, but they make up in numbers what they lack in size. Specimens in full bloom are often so covered with flowers that their leaves can not be seen.

CORAL BELLS. Low compact grower; shell-pink. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

DEBUTANTE. Low compact grower, salmon-pink flowers splashed with red. Early flowering.

Spring only—2 to 4 inch .60

HINO-CRIMSON. Medium compact grower; brilliant red. Single flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25
8 to 10 inch 1.75

HINODEGIRI. Medium compact grower; red. Single flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
15 to 18 inch 4.00

PINK PEARL. Hose-in-hose flowers, salmon-rose. Early flowering.

Spring only—2 to 4 inch .60

SHERWOODS RED. Medium compact grower; brilliant scarlet. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90
8 to 10 inch 1.75

SNOW. Low compact grower; white. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .60
4 to 6 inch .90

MOLLIS HYBRID

These azalea are deciduous and are upright, tall growers. They flower from mid-season to late in the season. These do well in the full sunlight but need to be kept moist. Following plants are well-budded.

- C. B. VAN NES.** Large, brilliant fiery-red flowers.
8 to 12 inch 4.00
- DIRECTOR MOERLANDS.** Our very best pure yellow. Large, single flowers.
8 to 12 inch 4.00
- DR. M. OOSTHOEK.** Pure orange. Large, single flowers.
8 to 12 inch 4.00

GHENT HYBRID - SEEDLING GROWN

The Ghent hybrids are a very beautiful group of upright, tall azalea with medium-sized flowers. These plants are very hardy and like full sun and moist soil. The seedlings were grown at TEN OAKS, and are from one of the finest collections in the northern part of the United States. These azalea are almost 90% yellow and orange.
6 to 8 inch .75

CHRYSANTHEMUMS

Hardy Outdoor Garden Varieties:

Below are a few directions to follow when receiving the small mums in the Spring: Unpack the plants at once, and water the moss around the roots thoroughly. Nip the terminal bud, and plant your mum in a good but not too rich a soil. Fertilize only once, keeping the soil well-weeded and aerated all summer. Nip the buds on each branch every two weeks until July 15th, but never after that. By following the above instructions, you will have a nice bushy plant full of blooms in the Fall.

The mums are shipped as grown in the New Jiffy Pot. Just plant pot and all when the mums arrive.

Small-potted, well-rooted plants are available in the Spring only — .45 each parcel post, prepaid.

These mums flower in September, and consequently they provide much beauty before a killing-frost arrives.

WHITE

CANDLELIGHT. Decorative, Secondary Border, Ivory White, Med. Height.

PAPER WHITE. Decorative, Secondary Border, White, Med. Height.

WHITE CUSHION. Cushion, Border, White showing traces of Pink in buds, Short.

NOTICE FOR HOLLY CUSTOMERS

For our customers in the far North and the cold Western states. The American holly or (Opaca) will take temperatures to far below zero and also the Japanese holly. If you wish us to leave out the English and Chinese varieties please tell us when ordering.

HOLLY (Ilex)

There are many valuable uses for holly. They can be used for the foundation planting of a home or for hedges, driveways, windbreaks and many more. One of the greatest uses today is the planting of holly orchards.

Hollies are dioecious; that is, they produce pistillate (female) and staminate (male) flowers on different plants. It is therefore necessary to have a male planted near a female tree in order to have proper pollen distribution on your female trees. If you live in a limited space and cannot have two trees, you can use some of the chemicals, (an example is Fruitone) or cut a spray from your neighbor's male tree, and hang it in your female tree at blooming time, (around first of May in Maryland).

Hollies like a well drained—but moist—soil. Before planting, dig the hole twice as deep and twice as wide as the ball on the plant to be planted. Next fill the hole with a mixture of one-third sand, one-third peat moss, and one-third compost or good topsoil. Set the plant, and fill the hole with the above mixture half-way up on the ball. Tamp the soil firmly, and water well to settle air pockets. After the water has soaked into the ground, finish planting to the level of the ball on the plant with the same mixture. Fertilize plants with an all-organic fertilizer such as cottonseed meal. Keep the plants mulched with three to four inches of peat moss. Small plants should be protected from the winter winds and sun during the first year.

ILEX OPACA (AMERICAN HOLLY)

O. CANARY. Beautiful yellow berry, holly that is very hardy.
Spring only—Small pot size .90
12 to 15 inch 4.00

***ROSEDALE'S BEAUTY. (T.M.R.)**

Large double red blooms in great profusion. Dark green, glossy leaves. A real beauty.

12 to 15 inches 4.75

Camellia Margarete Hertrich

HYBRID RHODODENDRONS

The Rhododendrons that we offer in this list are all grown in Maryland by us and are not imported plants.

For best results plant Rhododendrons on the north-east side of a building or in a shaded area where the morning sun does not hit them in the winter, and the afternoon sun does not hit them in the summer. Well-drained soil that is damp but not wet is best for Rhododendrons. Plant under the same conditions using same soils, fertilizers and mulches as you would use for planting azalea. It is best to protect from the winds in the winter by a small portable lath fence or evergreen boughs until the plants are well established.

The hardiness ratings indicate the minimum temperatures which the varieties or species may be expected to withstand with no appreciable injury to leaf, stem, or bud. It is realized, of course, that many seasonal and environmental factors may affect hardiness. The ratings are as follows:

H-1 Hardy to -25° F

H-2 Hardy to -15° F

H-3 Hardy to -5° F

H-4 Hardy to $+5^{\circ}$ F

These hardiness ratings are derived from The American Rhododendron Society.

CARACTACUS. (H-1) Beautiful purplish-crimson, medium grower, late flowering. Bushy, 12 to 15 inch plants.
6.00 each; 3 for 16.50

CATAWBIENSE ALBUM. (H-1) Blush white, medium grower, late flowering. Bushy, 18 to 20 inch plants.

—AMERICAN HORTICULTURAL SOCIETY—

The Officers and Directors invite you to join this Society, the objectives of which are:

To accumulate, increase and disseminate horticultural information of interest and value to professional and serious amateur gardeners.

To maintain a national organization of amateur and professional gardeners, garden clubs, horticultural and plant societies and associations, for the promotion of their mutual objectives and the more unified protection of their broad mutual interests.

To serve all members continuously by supplying and exchanging information through the medium of the NATIONAL HORTICULTURAL MAGAZINE, special bulletins and personal correspondence.

Benefits Offered To Members

You will receive the quarterly NATIONAL HORTICULTURAL MAGAZINE. This expertly edited, profusely illustrated publication is written by noted professional and serious amateur horticulturists.

An average issue contains 72 pages. Subjects treated are suggested by Members, and may range from the culture, propagation and history of a specific plant, on to the latest developments in chemicals for garden use. Current books on horticultural subjects are reviewed. New and unusual plant materials are discussed.

Only Members of the American Horticultural Society are entitled to receive this unusual magazine.

You will become associated with some of the world's most prominent amateur and professional gardeners and horticultural scientists. Through the medium of the NATIONAL HORTICULTURAL MAGAZINE you will learn more about their activities, their ideas and opinions, and benefit from their knowledge and experience.

To the

AMERICAN HORTICULTURAL SOCIETY

Please make my
BONUS ISSUE

- ☐ The Azalea Handbook
- ☐ Vegetative Propagation
- ☐ The Tree Peonies

Please use this order blank to help us and insure the correctness of your order

**On Route 32, off Route 29, Between Baltimore & Washington
Clarksville, Maryland**

Date.....	Name.....
Call for.....	Street.....
Ship Via.....	Post Office.....
All Prepaid Plants are shipped to our best judgment.	County.....State.....

All our collections are picked with care in an effort to help you pick your plants which are confusing to some. The size and grade are of the same quality of plants used to fill orders of your choice. The economy involved in selecting and packing collections results in a saving of labor which we can pass on to you.

May we substitute similar varieties of equal or greater value? Yes..... No.....
